European Union financial support | FEDER - 6.598.923,00 EUR

Project Summary:

With this project José Afonso & Filhos, S.A. intends to increase the company's productive capacity in terms of the production of ENplusA1 domestic pellets, briquettes, natural pine boards with dimensions of 2x0.21x1.4 (m), industrial pellets with certification ENplusA2 quality, larger boards (up to 3m), with smooth and sublime surface finish, with optimized cutting geometry, heat treated, which allow to obtain totally massive, robust and irreverent solutions for the construction of interior cladding and furniture of superior quality, customized panels with pine bark for aesthetic cladding of facades and mosaics with 5 mm thick pieces of wood inlaid with a different design.

The expansion of the business will be based on new processes with highly technological equipment, as well as marketing and sales activities that will allow to reach new market niches.

The implementation of this project will allow the company to increase its volume of businesses by 19.30%.
